

# Hosted Service

## The no.1 solution for a modern business

Tyreman are able to offer a low cost start-up solution to businesses with its innovative hosted service.

This comprises of a dedicated service based at a secure data centre. The customer only needs conventional PC's with internet access to operate the system and avoid the added expense and time of buying and maintaining a server locally.

## Introducing Tyreman

**Tyreman** is the next generation of real world automotive solutions.

**Tyreman** have been working hard to deliver what the market has been looking for.

Our solutions are fully interoperable with new features and latest technologies that are available not only now, but well into the future.

So if you are interested in improving your service and margins today, then the logical choice is ...

## Tyreman

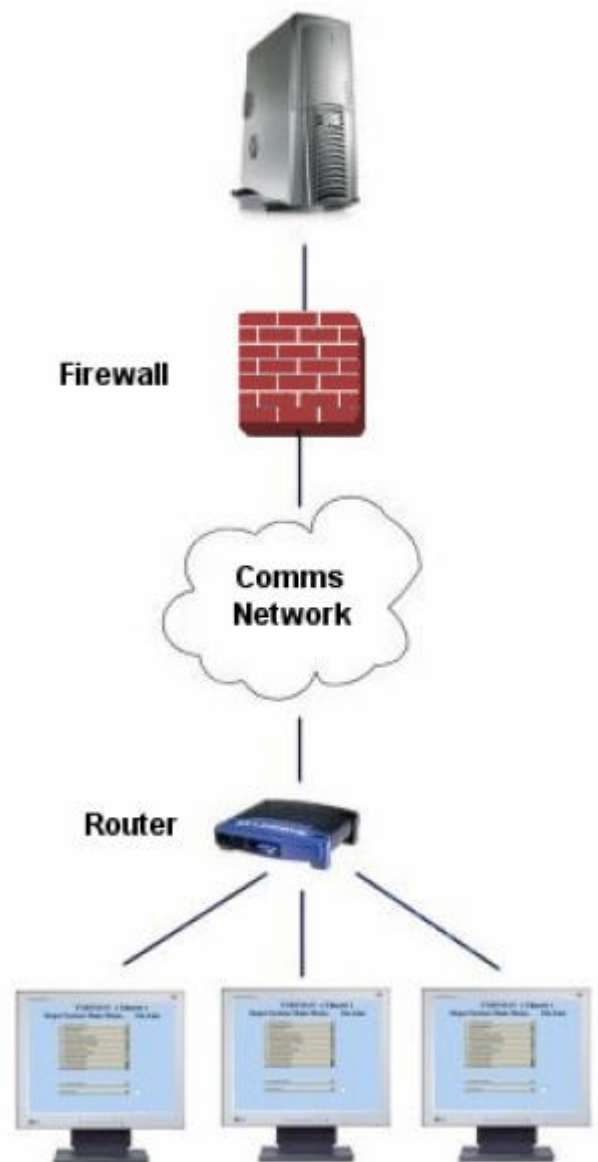

As a BT approved reseller Tyreman has a proven solution in supplying a true central server system with all the benefits this gives the user, including real time data for all branches.

The hosted service includes the provision of the hosted server, maintenance and backups.

This greatly reduces initial investment and makes the cost of starting a new business or adding additional branches as your business grows very cost effective.

Data changes like additional stock codes or price changes are available immediately at all locations,

With greatly reduced upfront costs and ongoing savings from maintenance and staff time the Tyreman hosted service is the number 1 choice for a modern business.
