205/55 R 16 MICHELIN EXALTO	9	0	↓ ↑	<input type="checkbox"/>

Filters allow the selection specific range of items so users can focus on their allocated stock to count.

Use more than one device so multiple staff can speed up the stock take process.

Management can add and authorise staff allowed to use the system and to which branch they are associated.

Settings menu allows customisation of information displayed.
